Visiting the inofficial Studer/Revox Museum in Zürich

Walti Stutz, HiFi enthusaist and a big fan of Revox HiFi Products has been infected by the Studer virus. This is why he expanded his collector's activity towards Studer Tape Recorders and all the other audio equipment from Studer until the nineties. This has lead to a collection that is regarded as THE Studer/Revox Museum.

This visit is a must for all Analogue-Freaks!

Program:

| 17:30 | End of meeting and transfer to Restaurant |

Please send me an Email if you want to join until December 1st. Please let me know if you join the dinner as well.
